## Sun Safety

Bromley Heath Infant School

24 April 2009

Dear Parents

We are enjoying some lovely sunny weather at the moment and this has prompted me to mention sun safety.

In order to ensure that your child is protected in the sun please ensure that:

- Sun protection cream is applied before your child comes to school - even on cloudy / overcast days when the sun may not appear to be very intense. There are products available that are effective for several hours.
- Your child has a suitable **named hat** to wear when outside.
- Children in Giraffe and Zebra classes have adequate protection as they spend at least an hour a day engaged in outdoor learning and play.
- On very bright days, sunglasses may be necessary.

**I have purchased sun cream that is suitable for children and should a member of staff feel that a child is at risk of burning in the sun we would give them some to apply in order to protect their skin from the sun's harmful rays.**

**If you do not want us to take this course of action, please inform your child's teacher.**

Thank you in advance for your co-operation

Chris Chrystal, Head teacher
